

I would strongly urge you not to ammend or attempt to interfere with Indiana's Telephone Privacy Act. Our household was receiving 10 - 20 calls per day soliciting something at all hours and in total violation of the 9 to 9 rule. But, since we were added to the list, we receive only a few, if any calls per month. It is nice not to be bothered when you are in the one place you want to be left alone . . . your very own home.
